## Ford F-650 and F-750 **New Program Announcement**

### **THE TRUSTED COVERAGE CONTINUES WITH THE INTRODUCTION OF THE APPLICATION PROGRAM FOR FORD F-650 AND F-750 COMMERCIAL TRUCKS.**

This program offers new and remanufactured genuine Delco Remy starters and alternators for 15 years of coverage for F-650 and F-750 trucks, all of which are OE-approved with proven performance and demonstrated durability.

Anchored on the 24SI and 28SI alternators, the program aims to replace the 22SI, which most Ford F-650 and F-750 trucks were equipped with at the factory. Both the 24SI and 28SI alternators are specially designed for today's higher under-the-hood temperatures and incorporate the dual internal fan (DIF) design for maximum cooling. DIFs provide greater air circulation over the alternator electronics, ultimately, improving the operating efficiency and durability of the alternator.

The 24SI, with over 500,000 units installed, assures OE quality and performance for aftermarket replacements, while the 28SI increases alternator output to 200 amps at road speed and 125 amps at idle. The 28IS is also available with Remote Sense which reduces battery charge time and increases battery life.
