

# Peterbilt: Spec it Right

## 36SI™

## 40SI™

### Alternator Product Details

#### 36SI

- **Output:** 12 Volts 160/165 Amps - 100 Amps at idle
- **Highest output at low RPM:** Manages heavy electrical loads at low RPM preventing premature battery discharge
- **Remote Sense:** Drastically reduce battery charge time
- **Brushless durability:** 13 fewer moving parts than a brush-type alternator, eliminating components that wear out while extending product life
- **Warranty:** 3 years/350,000 mile

#### 40SI

- **Output:**
  - 12 Volts 240 Amps -160 Amps at idle
  - 12 Volts 275 Amps -180 Amps at idle
  - 12 Volts 300 Amps -190 Amps at idle
  - 12 Volts 320 Amps -190 Amps at idle
- **Highest output at low RPM:** Manages heavy electrical loads at idle preventing premature battery discharge
- **Remote Sense:** Drastically reduce battery charge time
- **Brushless durability:** 13 fewer moving parts than a brush-type alternator, eliminating components that wear out while extending product life
- **Longer system life:** Over spec'ing extends life of alternator
- **Efficiency and power density:** Highest combination in its class, providing substantial fuel savings
- **Warranty:** 3 years/350,000 miles

- **Tested and approved for all MX engines**
- **Over Crank Protection:** A built-in circuit breaker, protects the starter from thermal damage, automatically resetting at a safe operating temperature
- **Design refinements** for optimal performance
- **Improved starter pinion engagement:** Redefined electrical soft start reduces wear-and-tear by slowly rotating the pinion until it properly engages into the ring gear before cranking.
- **Warranty:** 3 years/350,000 miles
