# Delco Remy® 42MT™ Reman Coreless Offering

Get the same Delco Remy® 42MT reman starter without the need to deal with core, all at a great low price.

This includes the three most popular models.

New part numbers have been created and must be used when placing an order.

## 42MT™

CORELESS PART #	SAME AS
8300000	10461052
8300001	10461053
8300002*	10461055

\* Equipped with Over-Crank Protection (OCP)

# Remanufactured Not Rebuilt

Genuine Delco Remy remanufactured units are produced using the same stringent quality guidelines and technological advances.

- Continual improvement of all OEM designs is an ongoing effort for all Delco Remy products. These same engineering improvements are integrated into remanufactured product designs.
- Starters are completely disassembled and inspected. Out-of-spec parts are discarded and replaced; remanufactured units are then treated against corrosion.
- All fasteners are replaced with new OE fasteners then tightened to OEM specifications.
- A patented Semi-Solid Link solenoid is installed on every reman unit. This technology helps avoid mechanical solenoid failure due to low system voltage.
- Every unit is thoroughly tested to meet OE specifications for electrical and mechanical load performance prior to shipping.
- The 42MT is backed by an 18 month, unlimited mile nationwide warranty. (Applicable to U.S. and Canada only)

## PREMIUM TECHNOLOGY SOLUTIONS

### Semi-Solid Link Solenoid (SSL)

- Stops current flow to starter after cranking cycle
- Avoids solenoid contact welding caused by low system voltage

### Over-Crank Protection (OCP)\*

- Prevents starter from cranking at high internal temperatures
- Protects unit in adverse starting conditions

\* Available on part number 8300002
